We're building stronger families for a better future in Tampa Bay.

Why Nearly 4,800 children in Hillsborough, Pinellas & Pasco Counties have been removed from their family due to child abuse and neglect concerns this year - the highest in Florida!

Who Founded in 1977, Champions is one of the only organizations to focus exclusively on preventing abuse and neglect. We envision a world where parents have the tools they need to provide a nurturing environment for their children to become productive members of society as adults.

How We build positive attachment and parental confidence that protect against child abuse and neglect. Our continuum of services includes family education, individualized support, parent-child educational programs and community education.

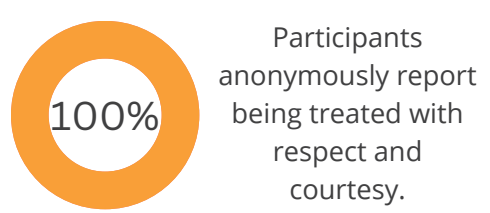

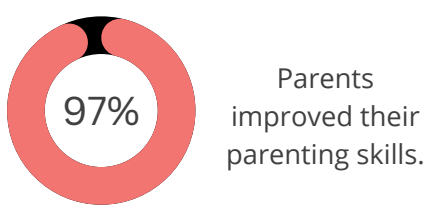

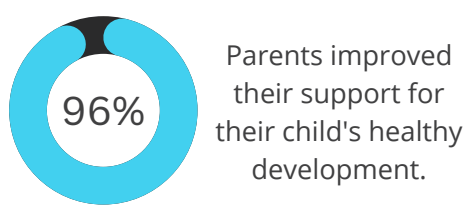

Our Approach

We build positive attachment and parental confidence that protect against child abuse and neglect through family education, individualized support, parent-child educational programs and community education from prenatal through high school graduation. We focus on the critically important 0-5 years old range. Because it is these early years that are the best opportunity for a child's brain to develop the connections, they need to be healthy, capable, successful adults.

Our Impact

27,000+ Served Last Year!
